

Session Title:**How you and your company can fight a massive tax increase and ensure career technical education in High Schools:**

Demystifying two November ballot measures critical to your company's future

Session Description:

There are actions you and your company can take to fight Oregon's largest proposed tax increase and ensure that the state invests in career technical education. Both of these issues will be at the center of this fall's November Election. The panel will breakdown what impact the proposed tax increase would have on Oregon business sales and the goods and services consumers purchase every day. Panelists will also discuss the effect a large investment in career technical education would have on Oregon's High School graduation rates and the state's future construction workforce. Join this panel to understand how you can speak out, educate your employees, and influence the outcome of these two issues when Oregon votes on November 8th, 2016.

Panel Members:

Mike Salsgiver, Executive Director, AGC Oregon-Columbia Chapter

Randy Steinman, Defeat the Tax on Oregon Sales

Russ Batzer, President, Batzer Construction, Inc.

Potential Times:

Friday August 12: 11am- noon

OR

Saturday August 13: 11am-noon
